ABSTRACT:

This book explains the emotion concepts of the Ibans, one of the indigenous peoples in Sarawak, Malaysia. It is an outcome of a research study, which aims to analyse the Iban emotion concepts utilizing Natural Semantic Metalanguage (NSM), an analytical tool developed by Anna Wierzbicka (1991), and the concrete/abstract cultural continuum framework, a framework introduced by J. Vin D'Cruz and G. Tham (1993), and later, J. Vin D'Cruz and William Steele (2000). NSM enables emotion terminologies in Iban to be explicated and further defined along the concrete/abstract cultural continuum framework.
